

PRECISION AUTOMOTIVE GROUP

Precision Auto Group (PAG) is a fee-based automotive advisory and services firm. We provide **unbiased, comprehensive, professional** automotive expertise to our clients. Our years of experience, wealth of industry knowledge, and network of contacts guides our clients through an uncertain and often deceptive marketplace.

We are **client advocates** and spend a great deal of time in discovery—digging deeply into clients' interests, lifestyle, values, and desires. Sometimes, advocacy takes the form of protecting our clients from making the wrong buying or selling decision. Other times, we uncover multiple alternatives, providing our clients the benefit of unexpected choice and price.

PAG's **services are customized to each client** and their specific needs. We can advise on a project basis, or we offer several tiers of retainer relationships for clients who prefer an ongoing, always-available, superlative level of expertise that cares for their collection as they would themselves.

Our range of advice includes buying, selling, maintenance, and other services—leveraging our areas of expertise, including retail sales, auctions, detailing, collision repair, service repair, restorations, dealerships, suppliers, OEM's, insurance, transportation, motorsports, and car control clinics.

Often, our clients' collections are in the category of investment grade vehicles. This creates the need for comprehensive advice, agreed-value insurance policies, proper storage, maintenance, detailing and the inevitable discussion of preservation vs. restoration.

SERVICES

- Comprehensive Buying Process, including discovery meeting, location and selection, inspection and appraisal, negotiation, and delivery.
- Learn the story behind the CARFAX (go beyond the PPI – Pre-Purchase Inspection)
- Identify previous owner issues
- Manage impact of limited inventory within a dealership
- Obtain service and accident history
- Leverage PAG's negotiation skills

BENEFITS

- Reduced risk + saved time = Money saved
- Acquire the right vehicle at the best price
- Protect investment
- Enhance ownership experience
- Eliminate hassle
- Diversify portfolio
- Divest market/industry falsehoods

TESTIMONIALS

"PAG is our go-to car guys for all things automotive. The cars they've sourced, the advocacy they promote and their level of expertise in this industry is unsurpassed."

– **Jim Richards**, Marco Island, FL

"While I'm the furthest thing from a car guy, my clients have found huge value in the consultative services PAG provides. They truly help WWP clients make better automotive decisions."

– **Rob O'Dell**, Wheaton Wealth Partners, Chicago/Naples

PRECISION AUTOMOTIVE GROUP

PROFESSIONAL FEES

PAG's professional expertise is provided to our clients on either an hourly, project, or retained basis. This means we receive no commissions, referral fees, bird dog payments, brokerage fees, or any other hidden fees or payments during the client engagement. We work as an advocate for our clients, with a 100% transparent fee structure agreed upon by both parties. This means our clients can rest assured our automotive advice is objective, and has their best interests in mind at all times.

HOW WE ARE COMPENSATED

Hourly

Start-the-clock, hourly advice, where clients bring their specific automotive inquiries to fill gaps in their automotive spectrum or seek counsel concerning their personal collection. Prior to our first meeting, we request our clients to educate us on their current standing in the automotive community, vehicles within their collection, and any other topics they will want addressed. Actual meeting time is billed by the minute.

Project Based Packages

Fees for this category are meant to reflect the breadth of services, along with the degree of complexity, of our clients' needs. Whether they are looking to acquire their first supercar, thin out a collection, or restore the old 911 they once loved, we can create a package to fit each client's unique circumstance.

Retained Model

When our clients (and their cars) choose to retain PAG, they have exclusive access to our vast knowledge of market trends, maintenance, preservation, and restorations. Our client's current standing in the automotive industry, complexity of their collection, and long term automotive aspirations, dictate which level of retained services work best. We encourage potential clients to set up a one-on-one consultation where a customized package can be built to suit.

ABOUT DAVID

A lifelong, incurable petrol head, David's involvement in the auto industry spans over 20 years. With extensive background in retail sales, auctions, detailing, collision repair, service repair, and restoration, David uses this expertise to achieve his ultimate goal – eliminating the hassle of automotive transactions so his clients can enjoy their vehicles. Specializing in luxury, sports, and classic cars, David has vast working knowledge of various makes and model – from daily rides including Audi, BMW, Mercedes and Porsche, to exotics such as Aston Martin, Bentley, Ferrari, Lamborghini, and many more.
